* "Change from Previous Year" indicates the change in referrals for a given month in comparison to that same month one year before (for example, if you are looking at the total from 02/2007, the total number of referrals is 30 more than the total from 02/2006).

** IFSP numbers listed and grouped by referral date, not the date the IFSP was written.

*** 12-month average is the average for the last 12 months in which it was possible for a referral to go over 45 days (for example, if the report is for September 7, then no August referrals would have had a chance to go over 45 days yet, so the 12-month average will take into account the last 12 months ending in July).

SPOE Data

* Some numbers may differ slightly from report to report due to factors like overlapping IFSP dates or lack of primary program eligibility. If you spot a larger error that needs to be addressed, please contact webreplyspedc@dese.mo.gov.

** If you have any requests for data that could be added to this report, please contact webreplyspedc@dese.mo.gov.

Data as of
Report Date: 10/29/2007

SPOE Region determined based on county of residence for child as of the report date above, which may be different than the county to which the child was originally referred.

* "Last 12 Months" is defined as the 12-month period ending 45 days before the last report date. This figure gives new referrals the requisite amount of time for moving from referral status to IFSP.

*All "Active Infants and Toddlers" have an active IFSP and have not been inactivated.

Data as of Report Date: 10/29/2007

** Children with an Initial IFSP meeting still ongoing as of the report date below are not counted in this report.

The following are definitions of each primary setting according to OSEP:

Community Setting - e.g. Program Designed for Typically Developing Children; services are provided in a program regularly attended by a group of children. Most of the children in this setting do not have disabilities. For example, this includes children served in regular nursery schools and child care centers.

Home - Services are provided in the principal residence of the child's family or caregivers.

Hospital (inpatient) - Hospital refers to a residential medical facility. Child must be receiving services on an inpatient basis.

Other Setting - Any service setting not included in the settings or programs listed above. For example, if the only component of the infant's early intervention services is parent counseling during which the child is not present, and the child receives no direct service, count as "other."

Residential Facility - Residential facility refers to a treatment facility which is not primarily medical in nature, where the infant or toddler currently resides.

Service Provider Location - Service provider locations are provided at an office, clinic, or hospital where the infant or toddler comes for short periods of time (e.g., 45 minutes) to receive services. These services may be delivered individually or to a small group of children.

Special Purpose Center - e.g., Program Designed for Children with Developmental Delays or Disabilities; this setting refers to an organized program of at least 1 hour in duration provided on a regular basis. The program is usually directed toward the facilitation of one or more developmental areas. Examples include early intervention classrooms/centers and developmental child care programs.

NOTES:

If the county's actual % of the population served is at or over 1.75%, it is in boldface.

"1.75% of Pop" and "2% of pop" are rounded to a whole number of children.

Under 3 Population is based on 2000 US Census Numbers

County determined based on county of residence for child as of the report date above, which might be different than the county to which the child was originally referred.
